

A one-time donation of \$\$\$ will underwrite this safe and effective program

Unfortunately neither Federal, State, nor School District Funding is available to underwrite this safe and economical solution to the head lice problem in our schools. That's why we're turning to the leading organizations of our community for support.

Knowing the concern which (Kiwanis club's) have for "Serving the children of the world", your clubs support would appear to be consistent with your mission statement.

This request can serve all grade school children in (ABC) School, and will be self-sustaining.

Your organization's projects show that you understand how important it is to help our children today ... for they will be our caregivers in the future.

Your modest financial involvement can make a huge difference in the quality of life for our students and educational standards in our area.

Please take a moment to read the attached materials which give more in-depth information.

Your thoughts are most important to the Parents, the (ABC) School, our Parent teacher Organization (PTO/PTA) and to me. I'll be calling you in 7-10 days to speak directly with you about this issue and answer any questions you may have.

Sincerely,

(Your name), PTO President
(ABC) School(s)
Contact info: phone/e-mail

Note: Calculate your start up seed money based upon \$1.00 for each child K through 6 within the school system you represent.
